CAUTIONARY STATEMENTS

This whitepaper contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. The forward-looking statements are based on analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These statements appear in a number of places in this whitepaper and include statements regarding Remix.Capital’s intent, belief or current expectations with respect to Remix.Capital’s financial position, business strategies, plans and prospects and future prospects of the industry. In many cases, but not all, forward-looking statements can be identified by forward-looking terms such as “aim”, “believe”, “could”, “estimate”, “expect”, “intend”, “may”, “might”, “outlook”, “plan”, “possibility”, “potential”, “probably”, “project”, “risk”, “seek”, “should”, “target”, “will” and similar terms. These forward-looking statements are based on current estimates and assumptions that Remix.Capital makes to the best of its present knowledge and are subject to risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, Remix.Capital’s actual results may vary materially from those currently anticipated. Potential risks and uncertainties include, without limitation:

- Remix.Capital’s ability to develop and launch the Remix.Capital platform or app or tokens.
- risks associated with meeting users’ expectations regarding the functionality of the Remix.Capital platform or app.
- risks associated with Remix.Capital’s business and operations.
- risks associated with an unestablished public market.
- risks associated with restriction of transfer of Remix.Capital tokens.
- risks associated with a user’s inability to access their Remix.Capital wallets.
- risks associated with the compromise of a user’s credentials.
- risks associated with insufficient interest in the Remix.Capital platform or blockchain technologies.
- Remix.Capital’s ability to continuously adapt its business model to meet market needs.
• risks associated with competitive technologies.
• risks associated with security weaknesses.
• risks associated with the new and untested technology underlying the Remix.Capital platform.
• risks associated with large volume transactions occurring through the Remix.Capital platform on the blockchain network.
• Remix.Capital’s ability to effectively protect its intellectual property.
• risks associated with meeting regulatory obligations in the countries in which Remix.Capital intend to operate.
• risks associated with unfavourable legal or regulatory actions.
• risks associated with the fact that Remix.Capital tokens will not be legal tender of any jurisdiction; and
• risks associated with tax treatment of Remix.Capital tokens.

Given these risks and uncertainties that may cause the actual future results, performance or achievements of Remix.Capital to be materially different from that expected, expressed or implied by the forward-looking statements in this whitepaper, undue reliance must not be placed on these statements. These forward-looking statements are applicable only as of the date of this whitepaper. Remix.Capital disclaims any obligation to update, or to announce publicly any revision to, any of the forward-looking statements contained in this whitepaper to reflect future actual events or developments.

Remix.Capital reserves the right to update this whitepaper at any time. Please visit Remix.Capital’s website (www.remix.capital) for the most up-to-date version of this whitepaper.

This whitepaper does not constitute an offer but is a concept paper.

REMIX Tokens (RMX) are utility tokens designed to interact and use in the REMIX.CAPITAL ecosystem of products for services and features. There are currently 9,256,962 RMX distribution in progress to early seed investor, team, marketing and bounty services and the remaining 9,256,962 will be distributed as an airdrop for BNB Holders:

Token Distribution
CONCLUSION

The cryptocurrency market is ever changing and growing. Start-ups, like REMIX.CAPITAL, will position themselves to be at the forefront of this fourth industrial revolution by offering a product line tailored and aimed to offer telecommunication services inclusion to users worldwide with as little as a smart phone and internet connection. REMIX.CAPITAL will build bridges used to buy, sell, and pay with cryptocurrencies. The lack of systems in place today that are secure and efficient will give REMIX CAPITAL popularity in choice selection amongst its competitors.
